

att: Michael Powell
in re - cross-ownership ban

I am against the repeal of rules & laws that regulate the large corporations that provide us with news & information. I feel that such an overwhelming concentration of media will make for less diverse, more commercial, and less accountable to the public reporting: indeed even the types of stories covered will be seriously affected by such concentration.

I feel that it is my responsibility to stay informed, and i need a variety of sources so i can weigh the various points of view.

I take this issue very seriously. Please consider the ramifications of your actions on this matter.
